

S2000

DRIVING SURFACE PERFECTION™

TECHNICAL DATA SHEET

Version: 1.0

Water Based Degreaser

DESCRIPTION

High performance water based anti-silicone panel wipe with aggressive degreasing action to remove contaminants such as wax, grease and silicones. Anti-static properties enable the effective removal of surface static (built up during the preparation stages) prior to over coating.

- Low VOC formula suitable for solvent sensitive plastics
- Compatible with most paint systems
- Non-flammable, non-hazardous

Typical Use

SYSTEM 20 Waterbased Panel Wipe is a carefully formulated anti-static, anti-silicone panel wipe which provides a powerful, aggressive degreasing action that avoids any attack on existing paint films.H11

Technical Data

Appearance Clear liquid
Specific Gravity 1.0 g/cm³

APPLICATION GUIDE

Tools Required

- Lint free wipers

Application

- Apply generously to the area to be coated using a clean, lint-free cloth. While the panel remains wet, wipe with a clean dry cloth until the degreaser has been completely removed. SYSTEM 20 Waterbased Panel Wipe is designed for use over most automotive substrates and existing paint surfaces.

STORAGE & VOC INFORMATION

Recommended Storage Temperature +5°C - +25°C

VOC Information

The EU limit for this product (product category: IIBb) in ready to use form is 200g/litre. The VOC content of this product in ready to use form is 100g/litre.
